WORK EXPERIENCE

Airspeed	April – June 2024
<i>IT Support Intern</i>	<i>Pascor Drive, Parañaque</i>
- Supported internal teams with IT troubleshooting and preventive maintenance for 20–30 computers. - Cleaned up systems and checked hardware to fix issues and reduce downtime. - Prepared and packed PC units for deployment to end users. - Organized internal records in Excel, working with departments like accounting. - Assembled and crimped Ethernet cables for basic networking tasks; got positive feedback from users for quick, reliable support.	

EDUCATION

PUP Open University	2024–Present
<i>Bachelor of Information Technology (3rd Year, Ongoing)</i>	<i>Sta. Mesa, Manila</i>

PROJECTS

Push2Cart (School Project)	April - May 2026
Lead developer for a full-stack group project using Next.js and Supabase. Built the frontend, backend, and database, and handled testing and debugging. Also helped with documentation and the presentation.	
Ben Dreams (School Project – Godot Game)	April - May 2024
Led the project team and managed task distribution. Wrote the game's story and narrative, and guided the team through development.
